New Product Release – December 2010

Alternative Fuel Cummins® engine coverage from Interstate-McBee

- * C8.3G / C8.3G Plus / GT / GTA8.3
- M-4089346 Piston Kit 10:1 CR
- M-4089348 Piston Kit 10.5:1 CR
- M-4089433 Piston Kit 8.5:1 CR

With the addition of the above piston kits, Interstate-McBee continues to expand our product offering in the growing natural gas powered segment of the engine market. With the release of these piston kits, Interstate-McBee now offers complete coverage for the 8.3G engine platform. The above piston kits are used in GT/GTA8.3 oil field and generator applications as well as the C8.3G and C8.3G Plus automotive applications. For the most cost effective use of these piston kits call Interstate-McBee with specific engine information and receive a quote on one of the applicable engine kits listed for reference below.

Kit Number	Description
IF3919937G	In-Frame Kit 8.3G
IF3948095G	In-Frame Kit 8.3G
OH3919937G	Overhaul Kit 8.3G
OH3948095G	Overhaul Kit 8.3G

M-2881952 Upper Gasket Set

New Product Release – December 2010

Expanded Cummins® midrange engine coverage from Interstate-McBee

Interstate-McBee continues to expand our product offering covering the very popular ISB midrange engine platform introduced in 2002. The sets listed below contain two of the latest style multilayer steel head gaskets which are size graded. The graded gaskets eliminate the need for piston grading. For proper engine rebuild use the head gasket from the gasket set which matches the gasket that was removed. Contact Interstate-McBee for application determination.

M-4089819 Upper Gasket Set – Front gear train engines.

M-4089263 Upper Gasket Set – Rear gear train engines.

All manufacturer's names, numbers, symbols and descriptions are used for reference purposes only and does not imply that any part listed is the product of these manufacturers.

New Product Release – December 2010

Additional Detroit Diesel® S60 coverage from Interstate-McBee

A-23531250 Liner Kit 14L Series 60

Interstate-McBee is pleased to offer immediate availability on the above liner kit which includes both the crevice seal and the D-ring seals needed for installation. This TLC type 14L liner kit listed above incorporates the same unique cooling grooves as our highly successful 12.7L TLC liner kit part number A-23531249. This patented design can keep your engine running cooler for longer life. Now you can benefit from reduced wear-and-tear on your 14L engine as well as the 12.7L models. Call Interstate-McBee with the engine serial number for exact application data.

All manufacturer's names, numbers, symbols and descriptions are used for reference purposes only and does not imply that any part listed is the product of these manufacturers.
